

THE HAYTI HERALD.

VOL. 3.

HAYTI, MISSOURI, THURSDAY, MARCH 23, 1911.

NO. 20.

BOOKER T. WALLOPED.

Peeked Through Keyhole in Door and Got Sound Drubbing.

By nosing around in New York where he had no business the other day and peeking through keyholes in an apartment house which was occupied by white people, Col. Roosevelt's big nigger and Whitehouse dining partner, Booker T. Washington, received a sound thrashing and it took the surgeons three hours to patch him up.

The white man was arrested, but shows no remorse of conscience, but of course Booker T. is pretty "sore."

LATER: Washington is making a strong prosecution of the case, and on account of his prominence the white man, a poor carpenter, may get the worst of it.

Among those who sent messages of sympathy to Washington are Andrew Carnegie and Jacob H. Schiff, Albert T. White, Borough President McAneny, the Rev. Leighton Park, William J. Schillfin, Jacob S. Creelman and S. Jacoby.

Envelope Contract Awarded.

Washington, March 9. The Mercantile Corporation of New York, with a plant located at Dayton, Ohio, was today awarded the four-year contract for printing stamped envelopes, including the personal return cards of individuals and concerns. For many months Postmaster General Hitchcock has had a fight on his hands over this contract, which was opposed by the allied envelope manufacturers and printers of the country. By awarding the contract today the dispute is settled for four years at least.

And this contract was let over the protests of practically every printer in the United States, of every country paper, and of thousands of business men.

The government has no more right to print and sell envelopes than it has to print and sell checks, letter heads, books, than it has to make and sell clothing, or machinery, or hats.

It is an outrage that the democrats of congress should right, as soon as possible.—Kennett Democrat.

The house has passed the Senate bill prohibiting women from working more than nine hours a day, or 54 hours a week in factories, laundries and other mechanical establishments, after amending the measure so as to make it apply with equal force to mercantile establishments, such as the big department stores of the large cities.

THEY'RE COMING BACK.

The Good Old Days of Hayti Fast Returning.

More people from the country were in Hayti Saturday than have been here in one day in five or six years, or especially since the local option election in 1906. At one time a count was made of the wagons on the square and 52 were counted. It is not known that this was the greatest number on the square at any one time, and probably it was not, as they were coming and going all day. And the people were all busy. Since the saloons came back to Hayti there has been a steady increase in every kind of business, without any increase in drunkenness and disorder, and it would be hard to find a more peaceable city than Hayti. One of the marshals is on the streets all the time, and it is seldom they have to make an arrest.

Please Be Fair.

The Herald had hoped to be spared the necessity of taking part in the present city election and that every candidate would be permitted to run upon his merits, but it seems that such shall not be the case.

The Herald believes in justice and fairness to all men, and when necessary we shall demand it.

For some time Night Marshal Butler seems to have been coming into disfavor among certain people and they have registered much dislike and complaint against him, and a great many people want to see Day Marshal Dewey because of Butler's acts and because Butler is not discharged from duty.

How foolish!

It seems that even a child should know better.

The night marshal was appointed by the mayor and board of aldermen, and not by Dewey.

The night marshal fills his own bond to the city, and is not working under Dewey's bond.

The night marshal is responsible for his own acts—not Dewey.

Dewey did not appoint Butler to the office and cannot discharge him.

Only the mayor and board of aldermen have the right to discharge Butler.

These are the facts.

Then why "cuss" Dewey?

We are not arguing Butler's case—not saying anything for nor against him. We are simply stating facts that the people of Hayti may know the truth.

No doubt the mayor and board of aldermen are doing what they think is best, for the present, at least, and Night Marshal Butler says that he is perfectly willing to leave everything up to them and step down and out at any time they ask it.

FIST FIGHT IN HOUSE.

Democratic Members Resent Insult and Administer Chastisement.

The Missouri legislature worked all day last Sunday to make up for lost time, and one of the bills passed was to cut off the \$90,000 appropriation that had been made for Game Warden Tolerton, for the reason that his office had been investigated and charges had been preferred against him. Smith, one of Tolerton's deputies, was present and made an insulting remark, whereupon Representatives Simmons and Stark landed on him and he was forcibly ejected from the house.

NEW BRICK BUILDING.

Material Being Placed on the Ground by Fred Morgan.

Fred Morgan, who worked so hard in the local option election to get the saloons back to Hayti, must certainly be receiving the fruits of his labors. At any rate, he must have great confidence in Hayti, as he has bought the two corner lots just off the northeast corner of the square, and is putting the material on the ground for a new brick building, which will be ready for occupancy July 8, at which time his saloon will open in its new quarters. The floors will be of concrete.
